## WORK EXPERIENCE

### Old St. Labs - Full Stack Web Dev Intern

📅 Sept 2024 - Oct 2024  
📍 Remote

Participated in an internship program where we were trained on Full Stack Web Development technologies such as NextJS, NestJS, and the AWS Platform. Worked on an internal web application that uses said technologies with AI integration as part of our project immersion.

### LoPhils Inc. - Frontend Web Dev Intern

📅 July 2023 - August 2023  
📍 Remote

Worked on the frontend of one of the company's web applications (revamping the User Dashboard and adding the UI for the Onboarding Experience).

## EDUCATION

### University of The Philippines - Los Banos

📅 2020 - 2024  
📍 Los Banos, Laguna

Graduated B.Sc in Computer Science

## PROJECTS

### ELBnB

A MERN-stack web application that allows users to look for accommodations in Los Banos. Worked as a Backend Developer on the project.

### Coachella Virtual Experience

A free roam simulation that offers an immersive experience of Coachella Valley Music and Arts Festival using WebGL and Blender.
